

Marc Nelson Oil Products, Inc.

Where customers come first!

Easy steps to fueling in a time-effective manner

Step 1

Single card system: insert driver card into card reader and remove in one motion.

Two card system: insert vehicle card first and then insert driver card.

Steps 3-6

- Enter pump information
- Enter individual PIN
- Enter odometer, if card is programmed for it
- Enter miscellaneous code, if card is programmed for it

Step 7

Activate the nozzle and reset the pump to zero by engaging the lever after you lift the nozzle. Pull the trigger to begin dispensing fuel. *Do not lock nozzle in the open position. Remain at nozzle while fueling.*

Step 8

When nozzle shuts off, do not top off. Return nozzle to pump and hang it up before driving away.

Step 9

If you want a receipt for your transaction, return to the card reader and insert your card again. Follow the prompts on the screen.

Use the HELP phone nearby if you require assistance or to report a problem at the site.

All of your petroleum needs under one roof!
